

Ferrari F8 Tributo

Product Name: **Evolution Line (Titanium) 30th Anniversary**

Product code: **S-FE/TI/1**

Approval: W/O

MSRP ex. VAT: N/A

INFO

Akrapovič is celebrating 30-years since its inception and to mark this important occasion the Slovenian high-performance exhaust manufacturer has launched a very limited edition of 30 pieces of this exclusive Evolution Line (Titanium) 30 Year Anniversary * exhaust for the Ferrari F8 Tributo.

Limited edition of 30 pieces each individually engraved with a special Akrapovič logo, its own serial number and a special certificate. Constructed from high-grade lightweight titanium. The link pipes are made from Inconel, with many complex parts cast in Akrapovič's in-house foundry. The heat insulation is titanium and each link pipe contains 300 cpsi catalytic converter. The tailpipes are a combination of a casted titanium shell, which is then mechanically machined and an inner made using CMC (Ceramic Matrix Composite). An ultra-light material regularly used in extreme racing and aerospace industries, designed to withstand intensely high peak temperatures and gives a visually striking finish.

Weighing in at 7.7 kg (28.8%) less than the standard stock system, the system emits a stunning sound, producing a deep and racing tone, fully befitting the V8 twin-turbocharged 3.9 litre engine. Power is increased by an extra 13.2 kW (17.9 hp) at 5,650 rpm, with a torque gain of 33.6 Nm at 2,400rpm - obtained in back-to-back runs on the Akrapovič dyno against a Ferrari F8 Tributo using a standard stock exhaust. This system is also equipped with an Akrapovič Sound Kit that allows control of the sound from the cockpit, enabling the occupants of the car to easily switch between the quiet mode and a sportier tone using the Sound Remote Controller, which opens and closes the exhaust valves, providing a fuller and more involved experience. Due to the nature of the exhaust system remapping is recommended and it is designed for use on closed course competition circuits and venues.

The Evolution Line (Titanium) 30th Anniversary exhaust system for the Ferrari F8 Tributo is a total work-of-art which perfectly demonstrates Akrapovič's knowledge and expertise garnered and grown over the past 30-years. Its rareness and unique quality will make this a real collector's piece that will be equally at home on the race-tracks of the world, as it would be displayed on a wall in a gallery.

* Pre-production model shown

* THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE

* CARB Non-compliant

* For OPF vehicles: When installing the Evolution Line (Titanium) exhaust system, remapping the ECU is mandatory.
